"In reply to my opinion the settlement of such boundary disputes as arise in the matter under consideration is a matter of European concern, and the American representatives will not take any part in the discussions concerning the Silesian question.

# Assembly Considers Physical Collapse Tax on Gasoline of Bolshevik Leaders

## One Cent a Gallon on Oil Fuel Used in Propelling Motor Vehicles and Boats.

Hartford, May 18.—Senator Trumbull, chairman of the committee on finance, in the senate today explained the bill for a tax of one cent a gallon on gasoline, motor oil and kerosene used in propelling motor vehicles and boats. It provides that dealers in gasoline, etc., shall furnish returns of their sales to the state for the purpose of ascertaining the amount of tax. The bill is a minimum fine of \$200 and a maximum fine of \$2,000.

Senator Trumbull said he would vote for the bill under protest. It was a revenue measure. The bill and another one were the last straw which the automobilists could stand.

Senator Brooks described the bill as class legislation. There was already a license law for the sale of gasoline in this state. He asked if the bill exempted kerosene.

Senator Trumbull said he did not know. Kerosene was classed as a combustible liquid. It was not a motor fuel. He admitted that perhaps the bill was not the best, but it was practically impossible to have a bill 100 per cent perfect. The bill was workable and practicable. It would raise revenue to the state of \$250,000 a year.
